April 8, 2017

Dear Mr. Shaffer and CHM staff:

We want to sincerely thank you for allowing us to bring 27 Berkeley Computer Science undergraduates, two staff members, and one professor with a passion for computing history into the Museum on April 8, 2017.

Besides CHM's extraordinary generosity in waiving the admission fee for our students, Leland Chen did a great job orienting the group and getting us off to a timely start for a great visit, and your volunteer docents, especially Paul Laughton and Bill Worthington with their always-engaging IBM 1401 demo, were always on hand to answer other questions.

The students came away with a renewed appreciation for their field and many have already said they are planning a return visit. I'm encouraging them to swell the ranks of your members.

Thanks to all of you for the great work you continue to do in bringing the fascinating history of our field to life.

Sincerely,
