Mr. M. Papo  
Compagnie IBM France  
20 Avenue du General Michel Bizot  
Paris 12e, France

Dear Mr. Papo:

I have just received a copy of Mr. C. E. Branscomb's letter to you of June 16th concerning the use of WWAM logic in the advanced accounting machine program in the United States.

May I congratulate you and your associates who worked so diligently and efficiently to devise this logic. Needless to say, efforts such as the ones shown by you and your associates in the French laboratory will make IBM and IBM World Trade continue to grow in the future.

I was also delighted to learn from Mr. Mork prior to my departure from the states that we are going to finish our own WWAM model because I feel confident that many of the ideas in this unit will be of tremendous help to us in the future.

Again my congratulations and appreciation for a job well done,

Sincerely yours,

  
Arthur K. Watson
